 **WaterAid**

WaterAid's mission is to overcome poverty by enabling the world's poorest people to gain access to safe water, sanitation and hygiene education.

WaterAid/Marco Betti

“ Since clean water my life has changed. Now we have clean water and can participate in other activities because we are healthy and can wash ourselves. Now I can work in the farm more and grow more vegetables which means we can save money. ”

← Tatu Iddi from Manguanjuki, Tanzania.

Every day in the developing world millions of people, usually women and children, must walk for hours to collect water for their families. This daily task prevents adults from working and children from going to school. Every year 40 billion working hours are spent carrying water in Africa.

WaterAid believes that access to safe water and sanitation facilities underpin health, education and livelihoods and form the first, essential step in overcoming poverty.

Help WaterAid enable the world's poorest communities to gain access to these basic human rights by holding a wine into water event in your local area. Please use the form below or contact Martin Dale at **020 7793 4550** or **[martindale@wateraid.org](mailto:martindale@wateraid.org)** for more information or to order a free fundraising pack.

## How the money you raise could help

**£15** is enough to enable one person in the developing world to gain access to safe water, sanitation and hygiene education.

**£210** could pay for a well and handpump bringing safe water to 90 people in rural Malawi.

**£632** could pay for a water tank in Dar es Salaam, Tanzania.

**£1,154** could pay for a school sanitation block for 200 children in Nepal.

WaterAid will use your money where the need is greatest.
