

Please fill your life-giving water bottles with change this Harvest!

When you take an empty water bottle, fill it with change and bring it into church, you're doing something amazing.

Together with WaterAid, our church can dig a deep borehole to give a year round supply of clean water to a community facing drought.

Thank you from people like Enita!

Life-giving
bottles
Harvest 2017

Our church raised a fantastic **£** _____ amount
for WaterAid's life-giving bottles appeal!

“Being a widow, sometimes people look down on you as the most vulnerable in society, however I am happy that the community depends on me for seedlings. My business has made my life better.”

Thanks to support from churches like ours, more people across the world are able to grow food for their families all year round.

Enita Mwiinga, a 35-year-old widow from Hamakumo village, Zambia, is one of these people. WaterAid installed a borehole in Enita's community which meant she was able to feed her children nutritious meals despite last year's drought.
