

No jitters. No caffeine. Just Water.

This January, go 100% pure and give the gift of clean water.

Thank you for taking part in Just Water in aid of WaterAid. Not only will you experience the personal benefits of drinking nothing but water all January, you'll also be helping people across the world access clean water, so they can thrive today and every day.

1 in 10 people in the world don't have clean water

Including the people of Frat, Ethiopia, where the lack of clean water is making them sick and holding back the whole community. Our changing climate is making life even harder. By raising funds for WaterAid, you can help communities in Ethiopia and thousands more around the world change their own lives forever, with clean water they can rely on.

JustGiving makes it easy

1. **Personalise** - People are more likely to donate if you have included a photo and description.
2. **Share** - Post it on social, add it to your email sign off - share it every way you can.
3. **Update** - Keep your sponsors up to date on your highs and lows with regular updates.

Top up with some extra fundraising

- Organise an online quiz. Create your own or visit our [virtual fundraising ideas](#) for inspiration.
- Boost your total by donating the money you've saved. A week's worth of £3 coffee could buy 5m of pipe!
- Have a special occasion and need a day off? Donate £24 for a 24-hr Raise A Glass Pass.

Matching your donations with

Make mine a double!

Give before 4 February 2021 and your donation will be doubled by the UK government, up to £2 million, making double the difference in communities across Ethiopia and thousands more around the world.

There's no need to go it alone

For more fundraising and Just Water tips, join the exclusive Just Water [Facebook Group](#) and don't forget to share all your pictures and updates [#TeamJustWater](#)

If you have any questions or need further support, please contact us at justwater@wateraid.org.

Every £ you raise will give people in Ethiopia and around the world clean water they can rely on today and every day

£40

could train and support one member of the women's group in water supply management

£100

could buy one steel pipe for the water pump.

£140

could provide one solar panel for the water pump.

£200

could fund 50m of pipe.

Meet Hawa

Hawa, a mother and farmer who lives in Frat, Ethiopia. She knows how vital clean water is, and is determined to bring it close to home.

"Not only are we tired of fetching water, everything [from the nearby town] is washed into the water. If I had a choice, I wouldn't touch it with the tip of my finger, but I have to use it for washing, cleaning and drinking."

By fundraising this January, you can help people like Hawa change their own lives for good.
