

Sunday School session ideas

Explain that this Christmas, your church is raising money for WaterAid to help transform health centres around the world – like Napacala Health Centre in northern Mozambique, which doesn't have access to clean water.

Use our presentation, available at www.wateraid.org/uk/christmas, to teach your group about life in Mozambique.

Make your own Christmas decorations!

Together with your group, colour, customise and add your own messages or prayers to our watery-themed Christmas decorations.

Display the finished decorations at church to show support to communities without clean water around the world.
